

Dear Mr. Evert,

Thank you again for your expressed interest in donating some parts for our project in Honduras. I was hoping to get you all of this information early yesterday, however we are still waiting for a final go ahead from the directors at the orphanage to buy the system. We still have yet to hear (hopefully at some point today) but I figured I would at least get you the necessary information to get the process rolling. Attached is a copy of a personalized letter requesting donation as you requested? Also here is the list of parts that we are planning on purchasing. I have been in contact with Filter Source, so if you were to purchase any of these items please let me know so I can call ahead and let them know that what you purchase is for our trip. This is a complete list so whatever you can provide will be greatly appreciated.

Thank you again; I cannot express to you how big of a difference Water without Border's contributions will be making.

- 2 Big Bubba Cartridge Housings BBH-150
- Big Bubba Non-Metallic Filter Housing @ \$625.00 each
- 1 Pleated 1 micron nominal Big Bubba filter cartridge BBC-150-P1 @\$146.00 each
- 1 Pleated 1 micron ABSOLUTE Big Bubba filter cartridge BBC-150-P1A @\$165.00 each

The filter cartridges will need to be replaced anywhere from 1-3 times per year so we were planning on purchasing a few extras to alleviate this extra financial burden. Once again, we still have yet to receive the final OK on this system. I will let you know as soon as I do before any purchases are made. Thank you again, and I look forward to hearing from you soon.  
Sincerely, Christian Ryan Paggi | B.S. Civil & Environmental Engineering, 2011
