Dear frank everet

RE: RUKUINI SCHOOL WATER PROJECT

My name is Doreen Changwony District Water Officer Wareng, I was introduced to you by Roxana during her stay here in Kenya. She told me you are the president of water without borders.

The purpose of this letter is to request your organization to kindly assist the school drill a borehole to alleviate the water shortage currently experienced. The school has a population of 400 students.

1. Drilling of borehole will cost approximately Kshs.3 million or 38,462 US Dollars.
2. Construction of 50m³ masonry tanks with gutters for roof catchment will cost approximately Kshs. 600,000 or 8,000 US Dollars.

Your kind consideration is highly appreciated.

Thank you.

Your faithfully,

**DOREEN CHANGWONY
DISTRICT WATER OFFICER
WARENG DISTRICT**
